Please print clearly, so others can read

SPPC USE

Amount: $_____	Date :_____
Cash	Bill to:_____
Check#_____	CC approval #:_____
Receipt#_____	Online order #:_____

Payment may be made on-line at soillab.tennessee.edu

If using a check make it out to **'University of Tennessee'**

Flood Survey: Are these soil samples deposited soil or sediment from the 2024 Eastern TN flood? YES NO ☐ 2449

Please provide at least **one heaping cup of soil** or two cups for multiple analyses.

If no crop codes, then no recommendations can be given.

Sample Name (*You provide*)	Farm ID (*optional*)	Crop 1	Crop 2	Crop 3	Crop 4	pH and Nutrients $15	Organic Matter $15	Soluble Salts $10	Texture (USDA) $30	Sulfur $10	Lab ID (*We provide*)
		Use crop codes on back of sheet									
						3.6	Y	N	L	19	
						5.8	Y	N	R	73	

‡**pH and Nutrients test includes:** soil pH, buffer pH, Mehlich-1 extractable phosphorus, potassium, calcium, magnesium, zinc, manganese, iron, sodium, and boron. Fertilizer and lime recommendations are also included.

Sulfur testing is offered but sulfur recommendations are based on crop, soil, and previous crop sulfur deficiencies identified by plant tissue testing.

Soil sampling and shipping instructions can be found at soillab.tennessee.edu.

Place soil boxes securely padded in a sturdy shipping box, as to not rattle.
Mailing bags/envelopes will crush samples.

†The University of Tennessee collects and summarizes soil sample data for research and extension education purposes. By submitting this sample you, or your agent, agree to this action.

Programs in agriculture and natural resources, 4-H youth development, family and consumer sciences, and resource development.
University of Tennessee Institute of Agriculture, U.S. Department of Agriculture and county governments cooperating.
UT Extension provides equal opportunities in programs and employment.
